(i) A full explanation, together with all supporting evidence, to demonstrate that the standard for relief contained in paragraph (a) of this section is met;

(ii) A summary of the petitioner's discussions with the incumbent carrier of the service problems and the reasons why the incumbent carrier is unlikely to restore adequate rail service consistent with current transportation needs within a reasonable period of time;

(iii) A commitment from another available railroad to provide alternative service that would meet current transportation needs (or, if the petitioner is a railroad and does not have an agreement from the alternative carrier, an explanation as to why it does not), and an explanation of how the alternative service would be provided safely without degrading service to the existing customers of the alternative carrier and without unreasonably interfering with the incumbent's overall ability to provide service; and

(iv) A certification of service of the petition, by hand or by overnight delivery, on the incumbent carrier, the proposed alternative carrier, and the Federal Railroad Administration.

(2) *Reply*. The incumbent carrier must file a reply to a petition under this paragraph within thirty (30) days.

Subpart A—Applications Under 49 U.S.C. 10901

§ 1150.1 Introduction.

(a) *When an application is required.* This subpart governs applications under 49 U.S.C. 10901 for a certificate of public convenience and necessity authorizing the construction, acquisition or operation of railroad lines. Noncarriers require Board approval under section 10901 to construct, acquire or operate a rail line in interstate commerce. Existing carriers require approval under section 10901 only to construct a new rail line or operate a line owned by a noncarrier, since acquisition by a carrier of an active rail line owned by a carrier is covered by 49 U.S.C. 11323. We have exempted from these requirements the acquisition by a State entity of a rail line that has been approved for abandonment, as well as operations over these lines. See subpart C of this
